Grow better every day

Trusted by Australia's wholesale nurseries for decades, Pot Perfection brings professional growing performance to home gardeners.

Formulated with RP HydroGro™ Wood Fibre and 18-month controlled release fertiliser, this nursery grade mix delivers balanced airflow, moisture control and long-lasting nutrition for stronger, healthier growth.

Ideal for ornamental, flowering and edible plants including vegetables, fruit trees, roses, acid-loving plants and Australian natives.

Features & benefits

- Trusted by 400+ wholesale nurseries.
- 18-month controlled release fertiliser.
- Suitable for all plants, including acid-loving species.
- Ideal for indoor and outdoor pots, tubs and containers.
- Wetting agent for even hydration.

How to use

Most plants benefit from repotting at least once a year. Water the plant thoroughly before removing it from its current pot, then select a new pot at least one-third larger.

1. Add a layer of Pot Perfection Potting Mix to the base of the new pot.
2. Position the plant in the centre of pot and fill around edges to within 20 mm of the top of the pot. Press down lightly.
3. Water in well and continue watering as required based on plant type and season.

How much will I get out of a bag?

Pot size (diameter)	A 25L bag will fill
6" pot (15 cm)	5-6 pots
8" pot (20 cm)	3-4 pots
10" pot (25 cm)	2-3 pots
12" pot (30 cm)	1½-2 pots

Be aware that volume and depth measurements are rounded to the nearest full bag.
